To: Charles L.A. Terreni**From: Thomas Chandler, concerned SCE&G customer****RE: Docket No. 2008-196-E**Posted: *ted*Depth: *S.A./ORS*Date: *7/16/08*Time: *12:15*

Mr Terreni,

I am writing with concern that SCE&G has not gone through the proper channels to inform the public of its permit application to go ahead with "pre-construction construction" at the VC Summer site in Jenkinsville. As I understand DOE standards, scoping meetings and public hearings must precede actions with potential environmental impacts. A motion should be made in the Wednesday meetings to address the pending permit approval. Thank you for your consideration.

Sincerely,

Thomas Chandler
